HOFFMANN

BALL AND ROLLER BEARINGS

THE HOFFMANN MFG. CO. LTD.,
CHELMSFORD ESSEX.

these cardinal features mark the whole Hoffmann range.

Their suitability for aero engines has long been widely acknowledged, and now the newly designed types are being found equally suitable for controls and other exposed positions. These bearings are cadmium plated on all external surfaces and are filled for life with anti-freezing grease. The latest type, embodying a self-aligning feature, is described in our list L T 5.
